

## MODELS 2432\...&2426

### **Movement:** 2432 & 2426

- Caliber of the movement-24mm.
- Movement height-6.5 mm.
- 32 Ruby jewels..

The inner scale indicates the current time in 24h format (Model 2426\... has arrow indication inside inner circle.). The rotating bezel scale adjusts the 2nd time zone. The rest specs and functions – see models 2416\...

The crown at 10 o'clock position always serves to adjust the 2nd time zone.

### **2432**

- \*1.Inner 24h scale.
- \*2.Date window
- \*3.2nd time zone scale

### **Rotating bezel scale**

Rotate the bezel scale in order to set the required adjustment of your home time versus the time of your current presence.
