

THE FIRST IN SPACE

Yuri Gagarin took the Sturmanskie watch, made by special order, into space on April 12, 1961. In weightlessness the watch worked flawlessly.

Since 1961 the Sturmanskie have been the official watch of the Soviet and Russian cosmonauts, which helped in difficult situations, withstanding severe tests in zero gravity, magnetic fields, extreme shocks, vibrations and temperatures

MODEL 2431

1. By turning the lower crown clockwise or counter clockwise position the name of the city with the local time facing the hour hand.
2. Current time in the desired city is indicated opposite its name or the city from the same time zone.

Technical Specifications

- Caliber of the movement-24mm.
- Movement height-6.5 mm.
- 32 Ruby jewels.

Hour hand performs only one full rotation per day. Time is indicated in 24h format.

Please see the other parameters and manual as in 2416 movement.

For models with World time scale:

Lower crown rotates the World time scale bezel, which enables you to read time of different time zones throughout the world.

STURMANSKIE

WARRANTY AND MANUFACTURER INFO

The manufacturer warranty period is valid for 12 months from the purchase date. In each country of sale the legal, country-specific guarantee conditions apply. The customer shall not have any claim under this warranty if:

- the watch does not have warranty card;
- the watch has been repaired by unauthorized service center or person;
- the watch is not used in accordance with the Instructions supplied in this User's Manual.

The Warranty does not cover the watch-case, crystal, band, bracelet and packing. If hidden faults are detected during the warranty period, the watch can be repaired at the warranty watch service shop marked by your local distributor. The right for warranty service is provided by the guarantee certificate attached to the given warranty-card of your watch. The claims on watch replacement or repayment are satisfied upon submission of the certificate from the guarantee service.
