

STURMANSKIE

THE FIRST IN SPACE

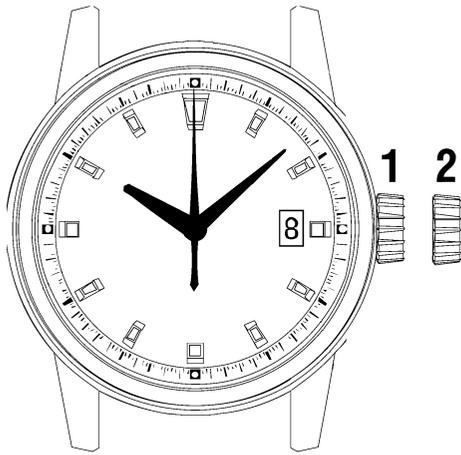

Yuri Gagarin took the Sturmanskie watch, made by special order, into space on April 12, 1961. In weightlessness the watch worked flawlessly.

Since 1961 the Sturmanskie have been the official watch of the Soviet and Russian cosmonauts, which helped in difficult situations, withstanding severe tests in zero gravity, magnetic fields, extreme shocks, vibrations and temperatures

MODEL 2416/...NH/35/...

Model 2416

Model NH35

1. If required, the watch can be wound by rotation of the watch crown clockwise from the initial fixed position. If your watch has screw-in crown, it should be unscrewed (Pic.10) before winding the watch. Do not forget to screw the crown back after the winding.

2. The hands are set the following way: the watch crown should be pulled out from the case to the remotest/outermost fixed position (Pic. 1) and then rotated clockwise to set the right time. Then the watch crown should be returned to the initial position (and screwed back in place if the watch has a screwed-in crown).

3. To change the date you should put the watch crown in the remotest/outermost fixed position and rotate the crown

clockwise till the date changes. If it is necessary to change the date-of-the month for more than one day, please rotate the crown clockwise till the date changes, then the hands should be moved counter-clockwise back to the «8 o'clock» and then again clockwise to the «12 o'clock» position. The date-of-the month shifts one day per each cycle of moving hands within the range «12-8-12». When the date-of-the month is set, the hands should be set to the time again moving clockwise. When hands are set to time reckoning after 12 a.m., they should be moved one full wind clockwise and then set to a desired position. NH35 models have quick date correction - turning crown counter clockwise in second position.

Technical Specifications 2416

- Caliber of the movement-24mm. • Movement height-5.7 mm. • Sweep-type second hand.
- Shock-resistance device of balance. • Correction of date-of-the-month by setting with hand-rotation. • 31 jewels. • Balance period-0,33 s. • Mean daily rate from -10 to + 30 seconds/day.
- Autonomy at least 31 hours.

WARRANTY AND MANUFACTURER INFO

The manufacturer warranty period is valid for 12 months from the purchase date. In each country of sale the legal, country-specific guarantee conditions apply. The customer shall not have any claim under this warranty if:

- the watch does not have warranty card;
- the watch has been repaired by unauthorized service center or person;
- the watch is not used in accordance with the Instructions supplied in this User's Manual.

The Warranty does not cover the watch-case, crystal, band, bracelet and packing. If hidden faults are detected during the warranty period, the watch can be repaired at the warranty watch service shop marked by your local distributor. The right for warranty service is provided by the guarantee certificate attached to the given warranty-card of your watch. The claims on watch replacement or repayment are satisfied upon submission of the certificate from the guarantee service.
